The following is an examiner's statement of reasons for allowance: In additions to the reasons submitted by applicants, it is noted that the cathode active material density disclosed by Goto, 3.6 g/ml, is for a cathode with a binder which is not particulate. This disclosure is thus not a disclosure of the present invention, which would outweigh the results shown in Table 1, which shows cell performance data for various densities for cathodes with particulate binders.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Stephen J. Kalafut whose telephone number is 571-272-1286. The examiner can normally be reached on Mon-Fri 8:00 am-4:30 pm.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Patrick J. Ryan can be reached on 571-272-1292. The fax phone number for the organization where this application or proceeding is assigned is 703-872-9306.
